

August 26th Internet Safety Day

There's a huge need to distribute Internet Safety Information to kids, parents, teachers, and the public in general. On August 26th. We are going to meet with several different groups who are providing this and other services in the area of Internet Safety.

Speakers will include:

Glenda Haynes with the US Attorneys Office – Project Safe Childhood

Ed Parmalee with the FBI – Internet Safety Information

Matt Ishee and Jay Houston of the MS AGO – Internet Safety Information/Lessons learned from giving IS presentations/ICAC Information

Gary Cantrell and April Tanner of MSU – Social Networking/Free Tools for Checking on Kids/Internet Safety Presentation Cooperation Program

Each speaker will present Internet safety materials and discuss what they are doing in that area. Our goal is to provide you with an idea of what others are doing in an effort to help you with any program you would like to get started. I hope to provide everyone with at least some of the material presented during the day for your own use.
